Github: https://github.com/dev94108 Mobile: +91 8077987098

Skills

Languages/Frameworks: C, C++, JavaScript, PHP, Python, Java, React.js, Tailwind, Next.js, Node.js, express.js
Tools/Platforms: MySQL, MongoDB, Git, GitHub, Visual Studio Code, Ubuntu, Figma and PostgreSQL
Soft Skills: Problem-Solving, Team Player, Critical Thinking, Adaptability

Projects

AI ppt generator | *React.js, TypeScript, Tailwind CSS, Lucide React, Firebase* | *Link* Dec' 25

- Developed a React/TypeScript platform utilizing the Gemini AI API to transform natural language prompts into structured, multi-slide presentations with automated Tailwind CSS layouts.
- Built a custom "Click-to-Edit" interface using iFrames and React hooks, enabling seamless real-time modification of AI generated content with instant Firebase state synchronization.
- Integrated ImageKit AI for dynamic visual generation and engineered a robust export module using PptxGenJS to convert web components into high-fidelity PowerPoint files.

Perplexity AI Clone | *next.js, supabase, ingest, web browser API* | *Link* Apr' 25

- Created an event-driven backend using Inngest to process user queries asynchronously, integrating Brave Search API results with Gemini 1.5 Flash for AI-generated, structured markdown responses.
- Designed PostgreSQL schemas in Supabase to persist multi-turn chat conversations, linking user queries, AI outputs, and session-based records securely.
- Implemented background job tracking with run ID polling to synchronize frontend state with asynchronous LLM execution, ensuring reliable UI updates after AI response completion.

Training

Cipher Schools (Edtech Company) Jun' 25 – Jul' 25
Professional Training on MongoDB, Express.js, React, and Node.js

- Mastered the MERN Ecosystem: Completed a rigorous industry-aligned training focused on building scalable, data-driven web applications using MongoDB, Express.js, React, and Node.js.
- Engineered Scalable Backends: Gained hands-on experience in architecting RESTful APIs, implementing JWT-based authentication, and managing NoSQL databases with Mongoose schemas.
- Developed Dynamic Frontends: Built responsive user interfaces using React.js, focusing on component-based architecture, State Management (Redux/Context API), and efficient data fetching, End-to-End Implementation: Applied industry best practices including Middleware integration, CRUD operations, and deploying full-stack applications to cloud platforms.

Certificates

Master Generative AI & Generative AI tools(ChatGPT & more) Aug' 25
Privary and Security in Online Social Media | NPTEL Apr' 25
Object Oriented Programming | Neocolab Dec' 24
The Bits and Bytes of Computer Networking Sept' 24

Achievements

Solved 400+ problems on Leetcode across various topics
Earned 100 Days Problem Solving Badge on Leet Code

Education

Lovely Professional University Phagwara, Punjab
Bachelor of Technology Aug' 23 – Present
Computer Science and Engineering; CGPA: 8.56

St. Mary's Academy Saharanpur, U.P.
Intermediate Apr' 22 – Mar' 23
Percentage: 92.2

St. Mary's Academy Saharanpur, U.P.
Matriculation Apr' 20 – Mar' 21
Percentage: 92.8
